		REVISION A			

NOTES:

1. SS/T retention strap should be constructed from the same material as used in original construction of the balloon envelope. Exception is Firefly/Balloon Works; contact factory to source mesh pouch.
2. End cuts of strap material to be cut with heat knife to prevent unraveling.
3. User may elect either Option 1 (as currently installed on most balloons) or Option 2, which offers greater security of the transmitter unit.
